

## Preparing for your trip

### A few tips to help you prepare for your trip

#### Security

A trip in a motorhome, avoiding travelling at night, will not expose you to insecurity. Avoid leaving visible valuables in the vehicle. Avoid shortcuts on the outskirts of major cities that could take you through townships. You should carry a mobile phone with you.

#### Type of luggage

Prepare your suitcases: the useful and... not the superfluous.

When travelling by motorhome in South Africa it is important to save as much space as possible.

In order not to be overwhelmed and especially if you pick up and drop off your vehicle in two different cities, remember to bring soft bags or even backpacks that can easily be stored in a corner of the motorhome.

If your city of departure and your city of arrival are the same, you can always leave your empty suitcases in a locker at the rental centre.

A day bag can be very handy to keep your valuables, or even for your excursions and visits.
