

From Auckland to Christchurch

We had a wonderful trip to this beautiful country where the camper van is the best way to discover these two islands."

The course is ambitious but the reward is such that the effort is priceless. New Zealand is overflowing with sumptuous scenery and breathtaking nature. The camper is the guarantee of a 100% nature and adventure trip where boredom has no place. "We were happy to have our vehicle with this large sliding door that also allowed us to be closer to the nature in which we stopped." In a few hours drive you will go from alpine mountains to big lakes and then primary forests to sandy beaches and fjords.

An unforgettable trip we recommend!
