

The climate

Temperatures and seasons in Norway

Discover the best time to go to Norway depending on the temperatures.

The climate in **Norway is temperate**. The best time to visit the country is in **spring** when the flowers bloom, which gives beautiful landscapes. In summer, the weather is unstable. It can be very hot and then rainy causing a drop in temperature. In winter, it is less cold than in the countries of **the Polar Circle**, the hinterland is the place where it is the coldest.
