

South African Road Trip

Discover Pierre's road trip through South Africa!

Hello,

I would like to share some of my photos and experiences from our wonderful road trip in South Africa.

It was a magnificent journey, full of emotions. We were absolutely enchanted by this trip.
We rented a 4x4 camper with a rooftop tent from July 24th through August 7th, 2017.

The preparations for our trip were competently handled through many email and phone exchanges with the readily available and extremely helpful team at CampingCar-Online/Ramble Campervans.

Not being avid road trippers ourselves, we loved the idea of sleeping in a rooftop tent throughout our journey. All of the equipment in the camper contributed to our comfort on the trip. Tables, chairs, dishes, small fridge, and even the sleeping bags, pillows and sleeping pads were very comfortable!

The landscapes were even more beautiful than we could have imagined. We had the incredible luck of being able to take in all of the Big Five!

The long and beautiful days allowed us to discover so much wildlife. The more we saw, the more we wanted to see! Between giraffes, elephants, and all the other animals present in the parks, we were blown away.

Thank you again for your guidance, which allowed us to fully enjoy this beautiful road trip. We will not hesitate to use your services again in the future.

Here are a few photos of this unforgettable experience!

Best regards,

Pierre
