The beautiful city of Valencia is the third largest in Spain and is situated in the east along the Mediterranean Sea near Madrid. Its close proximity to 3 major cities, Madrid, Barcelona and Almeria, make it an excellent starting point for your road trip with many different route possibilities. As is the case with many Spanish cities, Valencia has a rich cultural heritage drawn from different Roman, Arab and Christian historical and religious influences.

After spending a few days exploring the beauty of the city you can head north to explore Catalonia or south to enjoy the sunshine in Almeria. You could even head towards Madrid or Salamanca. The choice is all yours!
